Inscription Profession Leveling Guide

Inscription Overview:

Inscription is a new crafting profession that was introduced in patch 3.0.2. It allows players to alter spells in various ways, including lowering cooldowns, increasing damage, or tweaking spell mechanics (such as stun, knockback, and over time effects). It is a primary profession so it counts as one of the two primary professions a player is allowed to train in. The best complimentary gathering profession to get alongside Inscription is Herbalism since Herbs

Requirements:

To be able to train in Inscription you must meet the following requirements:

- You must be at least level 5
- You must have The Burning Crusade expansion installed to learn 1-375
- You must have Wrath of the Lich King expansion installed to learn 375-450

What Can You Do With Inscription:

Inscription allows you to create many items that make it a very unique profession.

- **Scrolls:**

Scrolls give players a temporarily bonus to their base stats for a duration of time. These will be highly indemand by gamers who do instances a lot.

- **Enchanted Parchments:**

Used by enchanters to write down their enchants and sell them. This will be one of the most in demand items because they can now easily sell their enchants over the auction house.

- **Glyphs:**

Glyphs are Items that enhance characters spells and abilities. Every player now has a Glyph page where they can alter their spells.

- **Tarot Cards:**

You can make Cards from the Rogues deck. Further more, you can purchase individual cards or make the ones you don't have to form a complete deck which will sell for a ton on the Auction House.

- **Ink:**

This is the lifeblood of your inscriptions. Inks are made by using the sub-skill of Milling. Milling herbs yeilds special reagants that can be used to make various inks.
